SUMMARY

Results-driven Frontend Developer with over 5+ years of experience in building scalable and high-performance mobile and web applications using React Native, React.js, and Next.js. Demonstrated expertise in optimizing user experience, code quality, and application performance.

SKILLS

- **Technical Skills:** React, React Native, Next.js, Firebase-notification, database, Firestore, Socket IO, Javascript, Typescript, Redux, Redux Thunk, Redux Saga, Redux Toolkit, maps, tracking, Geolocation, Social auth, Deployment-App store/Play Store, Payment Gateway
- **Languages:** English, Hindi
- **Certifications:** React & Redux course, EY IT Architecture - Enterprise Architecture - Bronze Learning (2024), React Native - The Practical Guide [2025]
- **Tools :** Git, source tree, Xcode, Android Studio, Postman, Flipper, Mentis, Trello, Jira, redmine

EDUCATION

Bachelor of Technology in Computer Science Engineering

Rajiv Gandhi Proudlyogiki Vishwavidyalaya, Bhopal (CGPA-7.81)

Aug 2017 - Jul 2021

WORK EXPERIENCE

EY (Ernst & Young) LLP, Delhi || Project Consultant

May 2024 - Present

- Ensured clean, maintainable code through regular code reviews and refactoring, adhering to best practices and coding standards.
- Developed and maintained scalable web applications using React Native, Next.js and Ant Design, focusing on performance, responsiveness, and user experience.
- Utilized Git for version control, managing code repositories, and facilitating collaborative development workflows.
- Collaborated closely with backend teams to define and integrate RESTful APIs, ensuring seamless communication between frontend and backend systems.

Octal IT Solution, Jaipur || Associate Software Developer

May 2022 - May 2024

- Designed and developed reusable React Native components, enhancing code maintainability and scalability across projects.
- Optimized application code for compact size and improved performance, ensuring efficient load times and responsiveness on both iOS and Android platforms.
- Conducted thorough code and pull request reviews, enforcing best practices and maintaining high coding standards within the team.
- Implemented and optimized RESTful API connections, streamlining data interactions across platforms.

- Designed and developed user interface components using React Native and Redux, ensuring cross-platform compatibility and optimal performance.
- Implemented code optimization techniques to enhance application performance, including reducing bundle size and improving load times.
- Developed and maintained Git workflows, enhancing code collaboration and version control efficiency across development teams.
- Worked closely with backend teams to integrate RESTful APIs, ensuring seamless communication between frontend and backend systems.

Ps Softech, Gwalior**Jul 2020 - Aug 2021**

- Designed and developed user interfaces using React, React Native, and Redux, ensuring responsive and high-performance applications
- debugging and release processes ensuring production stability.
- Implemented Git branching strategies to streamline collaborative development workflows.
- Integrated RESTful APIs to enable seamless data exchange between frontend and backend systems.

PROJECTS

Digital Sansad Project (DSP2) – Parliament of India

- A government-led initiative to digitize the parliamentary processes of both Lok Sabha and Rajya Sabha, enhancing transparency and citizen engagement.
- Tech Stack → React Native, React, Next.js, JavaScript, typescript Redux, ant design, tailwind

Lejardin

- A education application which includes admin, parent, staff or children
- Tech Stack → React Native, Javascript, Redux, Google Map, nativemodule, pdf, chat, calendar, navigaion

Platns.com

- A ecommerce application where buy different types of platns
- Tech Stack → React Native, Javascript, Redux, nativemodule, navigation,

Vlookup

- A education application where we can discuss mentor or mantee
- Tech Stack → React Native, Javascript, Redux, nativemodule, navigation,

Bill365

- GST billing application designed to streamline invoicing and inventory management for businesses in India.
- Tech Stack → React Native, Javascript, Redux, nativemodule, navigation,

2GTHR

- A social media application where we can pray for anyone
- Tech Stack → React Native, Javascript, Typescript, Redux, nativemodule, chat with firebase, navigation, Permission, deep Linking, Notification

Other Apps - Proximate, SportsFolio(React), Cupify(React)
